Surname	Country of birth

Historical Event

In the grid you will find **12** surnames of influential people down the years. (one point for each found).

(they appear : forwards/backwards/upwards/downwards/diagonally : none of them overlap with another surname)

For an extra point state the **country** where each of them was born.

By re-arranging the first letters of the **surnames** you find, you will discover the name of a **major historical event**. (one point)
